- Built fit-and-intent scoring, rejection rules and Zoho CRM/Marketing Automation workflows, using sales feedback and Zapier/API integrations to capture source, engagement and lifecycle outcomes.
- Managed six direct reports and two specialist agencies across content, design, web, campaign execution, research, video and SEO. Directed channel, agency and tool allocation against an approved budget that scaled to approximately ₹35 lakh.
- Improved organic visibility for the targeted keyword set by 45% through focused on-page and off-page SEO.
